THEY'S CURE.

FROM HOUSEHOLD WORDS.

Mourn, O rejoicing heart!
The hours are flying,
Each one some treasure takes,
Each one some blossom breaks,
And leaves it dying;
The chill dark night draws near,
Thy sun will soon depart,
And leave thee sighing;
Then mourn, rejoicing heart,
The hours are flying!

Rejoice, O grieving heart,
The hours fly fast,
With each some sorrow flies,
With each some shadow flies
Until at last
The red dawn in the east
Bids weary night depart,
And pain is past,
Rejoice, then, grieving heart,
The hours fly fast!

Clippings to laugh at.

A Lady gone to Paradise.—Married, in N. Y. City, Mr Andrew W. Paradise, to Miss Louisa Peers, daughter of Col. Thomas E. Peers, all of that city.

A gentleman having occasion to call for Mr. Joseph Gallan, found him at home in his writing chamber. He remarked the great heat of the apartment, and said it was "as hot as an oven." "So it ought to "replied Mr. G., "for it is here I make my bread."

—A soldier on trial for habitual drunkeness was addressed by the President—"Prisoner, you have heard the prosecution for habitual drunkeness, what have you to say in defence?" "Nothing please your honor, but habitual thirst."

—"Well, Alick, how's your brother Ike getting along?"

Oh, first rate—got a start in the world, married a widow who has nine children.

—Mrs. Partington says the only way to prevent steamboat explosions is, to make the engineers "bile their water on shore." In her opinion, all the bustin' is by "cooking the steam" on board.

—"NED has run away with your wife,' said one friend to another.

"Is it possible? Poor fellow!" sighed the bereaved husband; "I truly pity his sad mishap!"

—A lady of our acquaintance was so much pleased with a recently-imported Irish Protestant girl of this description, whom she lately employed, that she had'nt her two days before she had made her a present of a very handsome Bible "Musha an' the blessin' of the Vargin be upon you, Ma'am, but that same's a purty book!" "The Vargin!" did you say, Julia? why, you must be a Cathonic!" "Indeed an' I amn't, Ma'am sorra bit o' me; but God betune us an' harm," added she, crossing herself, "*ain't there a Protestant Vargin Mary too?*"

One of the Witnesses:—An old lady was subpœnaed to appear as a witness on rather a delicate case. She did not come, and a bench warrant was issued for her appearance, on which she was brought into court. The presiding judge thought it was his duty to reprimand her. "Madame, why were you not here before?" "I could'nt come, sir." "Were you not subpœnaed, Madame?" "Yes, sir, but I was sick." "What was the matter, Madame?" I had an awful bile, sir." "Upon your honor, Madame?" "No, sir, upon my arm."

"What's that horse out of!" said a fellow, with a view to quiz a farmer's boy, who was riding an old horse which showed less of blood than bone.

"Out of what!"

"Yes; what's he out of! Do you know?"

"Yes I do."

"Well, what?"

"He's out of oats."

"Margery, what did you do with that tallow Mr. Jones greased his boots with this morning?"

"Please, marm, I baked the griddle cakes with it."

"Lucky you did, miss; I thought you had wasted it."

A Reminiscence,—The recent wild child hunt in Eaton county, P. A has called up the following reminiscence, which we find in the Hastings Mirror:

This narrative reminds us of simalar case that occurred near this place in 1846. In May of that year word was brought here that two young boys eight and ten years respectively bothers, sons of a Mr. Freeman, then residing in the township of Carlton, were missing. A search had been made by the parents and people in the immediate neighborhood, some twenty-four hours before an invitation was extended thither for aid. Some three or four days was expended in the fruitless search after them in swamps, marshes, hills dales and dismal forests of our thick timbered lands were searched for miles around; but all to no purpose. The boys were never seen or heard of since. Men from every part of the country, and from neighboring counties were on hand, engaged in the hunt. Some five hundred or a thousand men were thus engaged. A great many conjectures were formed as to the final disposition and whereabouts of these boys Some thought they were carried off by the Indians; this idea however, was generally rejected as untenable and improbable; others again thought that they were attacked and devoured by wild beasts, but if this had been the case it would seem that there would have been some trace, some part of their garments or other indications of such a disposition of them discerned ere this to confirm it no such indications have been seen, that we have heard of. The whole affair is wrapt in an impenetrable mystery. The fate of these two little boys would constitute a fruitful theme for legend will forever hang over the early history of Barry county as one of the cruel privations of a pioneer life.

Eastern Horses.—From a camp letter we extract the following interesting remarks. Most European Horses, says the writer, like to teaze their rider; the Eastern horses would as soon think of flying. Nine out of ten English horses, if an accident happen to your saddle or bridle, will select that very moment for some display of energy or temper. I have known many Arabian horses whom you could stop in full career simply by taking your foot out of one of the stirrups. Not that they are tame and spiritless, far from it. Let the American horse know that his rider sits firm on the saddle, that his feet press equally in either stirrup, that the bridle is all right, and that prancing and curvetting are declined; and he will play at that game with spirit enough to satisfy the most fastidious horseman. If the rider is up for a neck or nothing race his horse is the horse to dash forward at all risks. But if his master is faint and weak, the same horse feels for him, and will carry him steadily and tenderly, as a good nurse does at last sickness. If you ride him over broken ground, he will take the greatest care; and if he falls, you may be sure he will fall in such a place as to hurt himself and not you. Our young officers are rather reckless riders. I have heard of scores of falls in full gallop, during this campaign. I never knew any one come to harm that had a fall with an Eastern horse. In July last, an hour after sunset, racing it hard over the darkened plain of Devna, with a young officer of the Light Division, who since died a hero's death at Alma, his horse fell in full career. Horse and rider rolled in the dust, and it was altogether a fearful fall. The rider got up bewildered, astonished, and perfectly sound The animal's knees and face were cut; he had put down his head to break the fall! If this accident had happened with a European horse, the officer would hardly have died on the field of battle.

REPUBLICAN STATE CONVENTION.

A Republican State Convention will be held at the Capital, in Madison, on Wednesday, the 5th day of September, A. D. 1855, at 12 o'clock, M., for the purpose of nominating candidates for State Officers, to be supported by the people at the next General Election, and for the transaction of such other business as may be deemed expedient.

Each Senatorial and each Assembly District of the State will be entitled to two Delegates in said Convention.

The Committee would respectfully suggest that the several District Conventions for the appointment of Delegates to the State Convention be held at 2 o'clock, P. M., on Saturday, the 25th day of August.

In cases where Conventions for the selection of Delegates are not held in a Senatorial District, the Delegates from the several Assembly District, comprised in such Senatorial District, are empowered to appoint the Senatorial Delegates for such District.

Dated at Madison, July 9th, 1855.

Arrival of the Baltic from Europe.

The steamship *Baltic* reached her dock in New York, early yesterday morning. She brings European intelligence to July 18th which is generally of an interesting nature, though nothing very striking or important has occured.

From the Crimea we learn that the French are steadily pushing forward their works near and nearer the Malakoff Tower, which the Russians are busily engaged in fortifying, and endeavoring to render impregnable. The English are advancing toward the Redan.

On the 11th the Allies opened a tremendous fire and a Russian Admiral—Machinoff was killed. On the 13th the Russians cannonaded the French battery constructed between the Mamelon and Malakoff with great effect, killing a large number of officers and men, and checking the progress of the French works materially. On the 15th, after another furious cannonade, the Russians made a sortie during the night but were quickly repulsed by General Canrobert, with a considerable loss. These are the only occurences of any note that have happened since last advices. The health of the Allies is very good. Reinforcements are gradually pouring in. General Simpson is said to be only Commander in chief pro tem and will soon resign—who is to be his successor we are not advised. No change has as yet been made in the field forces, though rumor has it, some important step is soon to be taken.

In a naval way preparations continue for a campaign in the Danube, and for a Maratime expedition, destination secret. Operations in the sea of Azoff and in the Baltic have been unimportant. The Russians are encamped near Kars, but have not yet invested the city.

It is rumored in Paris that the preparations of the Black Sea Squadron are not for an attack on Odessa, but to make a bold dash at the harbor of Sebastopol with 100 ships and 4,000 men, while a simultaneous attack is made from the land.

The Baltic Admiral, LORRAINE, remains with the bulk of the fleet off Cronstadt, while the gun-boats and water-vessels, forming a squadron of 50 vessels, are at Nurjon. Admirals DUNDAS, SEYMOUR, and the French Admiral had been in consultation at Narjon, and it was the general belief that something would be soon tried somewhere. A boat belonging to the British Ship Ajax had captured a launch containing the Russian mails. All the letters addressed to officials were in cypher.

The miscellaneous news is rather unimportant.

An insurrection of Arabs in Tripoli has overpowered the forces of the Bey, and threatens trouble to the Porte.

The position of diplomacy remains the same. Prussia deciding on her neutral position, and Austria making open advances towards Russia, causing much disquietude.

Parliament will be prorogued on or about the 16th inst. Sir Wm. Molesworth is definitely appointed colonial secretary.

The Obsequies of Lord Raglan had been celebrated in England with every mark of respect.

Letters from Paris state that the applications on the part of Englishmen for the new French loan of 750,000,000 francs, will reach 250,000,000 francs. The Emperor has gone to the Pyranees to escort the Empress to Paris.

It is reported that the local board of Administration in Poland is to be dissolved; Polish political offenders are to be tried by martial law.

On her outward passage, when off Halifax, at half past 10 in the night of Saturday, the 21st ult., during a thick fog the Baltic ran down the Schr. Sarah Ann, from Bangor for Bristol. All on board were picked up by the Baltic, and the Schooner afterwards found and taken into port.

Foreign Notions of Beauty.—No two nations have a similar idea of beauty. The Japanese women gild their teeth, the Indians paint them red, whilst in Guzart the pearl of the teeth to be beautiful must be died black.

The ladies of Arabia stain their fingers and and toes red, their eyebrows black, their lips blue.

In Persia they paint a black streak around their eyes, and ornament their faces with various figures.

In Greenland the women color their faces with blue and yellow, whilst the Hottentot women paint in compartments of red and black.

Hindoo females, when desirous of appearing particularly lovely, smear themselves with a mixture of saffron, tumeric, and grease.

In ancient Persia, an aquline nose was often thought worthy of the crown: but the Summatraan mothers carefully flattens the nose of her daughter.

An African beauty must have small eyes thick lips, and a large flat nose.

Lack of Courage.

We cannot but believe that if there had been one dozen determined, armed men at West Bend, the disgraceful and revolting slaughter of Debar would not have been committed, nor our State been obliged to bear the stigma that now rests upon her fair fame.

The Military acted either like cowards or villains—cowards by giving way at the first rush of a few desperadoes, or villains by purposely yielding the poor culprit they had pledged themselves to protect into the merciless hands of a blood thirsty mob.

We are the last to counsel bloodshed, or violent ends, but there are times when powder and ball seem indispensable, and their use demanded by stern necessity. Such a time was it when the miserable villain Debar was wrenched from the hands of Justice and foully murdered, and we had rather recorded, painful as it would have been, the death af a dozen of that mob, and seen the law of our land sustained, than the lynching of one miserable wretch, and had its majesty and strength disregarded.

The "Sea Serpent" No Hoax.

It is now settled beyond a doubt that a monster of huge proportions, belonging to the Serpent species, makes his home or "summer residence," in Silver Lake, near Wyoming, New York.

He has been seen by various persons at various times, and parties are at present engaged in trying to catch him. Two families at different points, saw the monster, apparently sunning himself on the surface of the water.

A description is impossible, except of his movements. He moved and floundered about for ten or fifteen minutes. The parties were from one quarter to one half a mile distant.—The water elsewhere on the lake was as smooth as glass, and there could be no deception or optical delusion in the vision of the parties.

All concur in the statement that he is as large round as a large log, and that 30 or 40 feet of him was visible.

The parties saw it unknown to each other.—Some of them have no personal acquaintance, and one or two are yet almost ready to disbelieve their own senses rather than run counter to all well established rules in regard to Snakeology.

For ourselves, says the Wyoming *Times*, "we are forced to admit the fact of the existence of a monster of the Serpent species, of immense proportions, in Silver Lake. We cannot escape the conviction and belief, unless we disbelieve merely because we have not seen.

"We assert, without fear or contradiction, that there is not a log on nor in the waters of Silver Lake—that nothing has been placed there to create the Serpent story—and that what is above stated, and what has appeared in the Wyoming *Times* regarding a serpent in Silver Lake, has been related to us by candid, honest and truthful men and women."

If they succeed in capturing his "Snakeship" we venture to predict Barnum will make another small fortune—but we shall quietly wait, and "see what we shall see."

Danger in Descending Wells.

We have noticed in many of our exchanges recently, quite a number of fatal accidents resulting from persons imprudently descending into wells without taking any preliminary measures for ascertaining whether they could do so without endangering their lives.

Where the means of knowledge are so simple it seems too bad that a single life should be sacrificed by a reckless indifference, or unaccountable stupidity.

The cause of death in such cases is carbonic acid gas, or as it is familiarly called, "choke damp." It prevents respiration, extinguishes flame, and is generally found at the bottom of wells, being of greater specific gravity than air. It is generated by vegetable decomposition, and also by combustion.

The scientific American says, that any well may be descended with perfect safety by the use of quick or fresh burned lime, recently slacked, or without being slacked. When there is choke damp in a well it can easily be known by letting down a lamp or candle by a cord. If the light burns freely, it is a sign that no choke damp is there, and the well may be entered with safety; but if the candle burns dimly; or is extinguished, it is a sign of danger. To remove this gas so as to render it innoxious to the person entering the well, all that has to be done is simply to throw down some pieces of fresh burned lime into the water, and agitate it with the bucket on the rope, or with a pole.

Another plan is to slack the lime in a small heap, mix it with water in a tub, and throw down three or four pailsful into the well. Or if it is desired to enter the well and not disturb the water in it, take about half a pailfull of slacked lime, mix it quickly with cold water in a small tub, and lower it down into the well by cords attached to its lugs, so as to rest on the surface of the water. The contents of this tub must be stirred up for ten minutes with a pole in the well and then left suspended for an hour. When drawn up, any person may descend the well with safety.

These facts are so plain that it seems almost suicidal to hear of any accident resulting from descending wells and we sincerely hope none of *our* readers at least will be guilty of such foolishness.

Abuse of the Franking Privelege.—This Franking privelege is a great nuisanee to business men, and all not in Congress, We were impressed anew with its injustice in seeing in the *Missouri Democrat* a statement that its editor in passing the St. Louis Post Office beheld *eight* immense bags of of mail matter laying at the door weighing about *twelve hundred pounds*, all labelled "Free—Henry S. Geyer."

It was privately stated to him that the ballance of Mr. Geyer's shipment consisted of a *pair of French bedsteads, with bedding to match*, had just been taken inside the Post Office door. Whether these latter came *by letter* or not, he could not say.

☞On reading Judge Kane's Decision—

A brand was set upon the man accursed,
The earliest brother slayer, Cain the First;
But by himself assumed, the blighting stain,
There is no need to mark the second "Kane."

Convention.—A Republican Senatorial District Convention, for the counties of Sauk and Adams, will be held at Baraboo, on the 25th inst., to appoint two delegates to the Republican State Convention.

Small Game—'Twon't Do.

Some of the anti-Republican papers are endeavoring to prejudice the public mind against the cause of Freedom, by speaking of the recent lynching of Debar, as the necessary consequence or fruits of "Abolition Law breaking," as they are pleased to term the rescue of Glover.

The mere fact of our enemies being obliged to resort to such a low course, proves the desperation to which they feel themselves driven, and is a virtual acknowledgment of the utter hopelessness of their cause.

That there exists any similarity between the lynching of Debar and Mayberry, and the rescue of Glover, or that the former is in any way the fruits of the latter, is too absurd for a sane man to believe or uphold.

It is a mere trick of the enemy to manufacture capital, and injure the Republican cause, but they will find it poor policy, for the people have a mind of their own as well as common sense.

It won't do, gentlemen, indeed it wont. We know you are "hard up," but really we would advise you to frame an artifice not quite so palpable—if you please.

Echos.—The best are produced by parallel walls. At a villa near Milan Italy, there extends two parrallel wings about forty-eight paces from each other, the surfaces of which are unbroken either by doors or windows.—The sound of a human voice, or rather a word quickly pronounced, is repeated above forty times. An echo in Woodstock Park, England repeats seventeen syllables by day, and twenty by night. An echo on the north side of Shipley church, in Sussex, repeats twenty syllables

These echos remind us of a little lake, near the head of Lake Superior, is not marked upon the maps, which has a most distinct and beautiful echo.

Sound your name or give a whoop, and the rocks amongst which the lakelet lies, will ring with the sound, that grows fainter and fainter as it seemingly floats away upon the bosom of the air reminding one of Shelley's words:

Echoes we; listen!
We cannot stay:
As dew stars glisten
Then fade away—
Child of Ocean!

O, follow, follow!
Through the caverns hollow,
As the song floats thou pursue,
Where the wild bee never flew,
Through the noontide darkness deep,
By the odor-breathing sleep
Of faint night-flowers, and the waves
At the fountain-lighted caves,
While our music wild and sweet,
Mocks thy gently falling feet,
Child of Ocean!

Logical and Witty.—While Governor Reeder was stopping at Washington, the Lowell *Courier* says, one of the serviles of the President approached the Governor, and desired him to resign, remarking it would be a great relief to the Administration if he would do so; as Gov. R. was very unpopular with many members of the Democratic party. Gov. R. modestly hinted that he should do no such thing, but was ready to receive the stroke of the guilliotine at any time. "If Mr. Pierce desires to restore harmony in the Democratic ranks," remarked the Governor 'let *him* try the experiment of resigning, and see what the effect will be."

—The steamer *United States* was not sold to the Spanish Government as stated. She has been sold by Captain Graham to Messrs Sauguiniz Brothers Noriega, Olmo & Co., Salvador Sama and Faancisco Marty, a new set of boilers to be furnished by the vender within eight months and the price touches near $150,000. She is to connect between Havana and Vera Cruz. The *Ocean Bird* and *St. Lawrence* are to be put *en route* between New York and this port all to connect with the Spanish line of ocean steamers in which the parties purchasing the *United States* are largely interested.

—A Mr. Morris has proposed to the Sandusk kians, in Ohio, to bore an artesian well, in order to test whether a supply of good water can be found within a depth of 500 feet, that will rise high enough to supply the city. The expenditure will be but a trifle compared with the importance of the object in view. In no other way can the city be supplied with good water for all purposes, for at least ten years.

—On Sunday last a man named Geo. Shank, who lived as hostler with Dr. Œhg, in Weynesborough, Penn, hung himself. The only cause assigned was grief for a favorite horse of the Doctor's, named Fox, during whose sickness Shank was heard to say, "When Fox dies, I want to die too." After the animal's death, when removing its halter, he remarked, "This halter will do me a service some day," and verified the remark by ending his own life with it.

—On the Boston and Maine Railroad, a few days ago, near Berwick, as the Conductor was passing through the cars, taking up tickets, he found a man dead in his seat. The Conductor had spoken with him but fifteen minutes before, when he appeared to be in perfect health; and so easy was his transit from this world to the next, that passengers sitting in the next seats did not notice any change.

—A telegraphic dispatch was received a few days since at the office of the Chief of Police, in New York, dated from Poughkeepsie, announcing the fact of a robbery to the amount of about $1,200, perpetrated on Thursday night by one George W. Thompson; the sufferer being Thomas Clegg, of that city. It further stated that the thief was on his way to this City in the steamboat *Alida* then expected to arrive. Officer Mc Pherson was immediately sent off to the place of debarkation, and succeeded in effecting the arrest of the accused party. On a search being made, upwards of $1,000 was found upon his person, supposed to be a portion of the proceeds of the robbery. Prisoner was detained at the cells at the Chief's office.

—The peach crop in Delaware will be very abundant this season. The trees are so full of the young fruit, that already their limbs are considerably bent down, and in many instances entirely broken off, and lay upon the ground. The season has been particularly favorable, which leads us to anticipate not only an abundance, but also a delicious flavored peach in the coming crop. In New Jersey, we understand that the crop will be heavy; in fact the trees are represented as being entirely too full and overloaded.

STATE ITEMS.

—A terrific storm occurred at Beaver Dam, on Friday evening last. The canvass of Orton's Circus was blown down, and the center pole broken into pieces. No lives lost, however.

—Mr. ANDREW HAIGHT, late of West Dresden, Yates Co., N. Y., has recently removed to Beaver Dam, and purchased some $7,000 or $8,000 dollars worth of real estate in that village. The *Republican* thinks him a sensible man.

The *Beaver Dam Republican* says a tannery is much needed at that place, and that if any person who understands the business, and possesses the means, will establish a tannery there, he will find it extremely profitable.

—Counterfeit $10 bills have made their appearance on the Janesville City Bank. The Bank has issued no tens.

—A new Bank is about to be organised in Janesville. This will make the Fourth institution of the kind in that thriving young city.

—The Annual County Fair of Rock Co., will be held at Janesville, on the 25th, 26th and 27th days of Sept. next.

—The Potosi *Republican* will be suspended, after one more issue. Its editor says it is not supported.

Highway Robbery.—A Mr. H. D. Bristol was knocked down and robbed of $930, by two ruffians, on Thursday night last, on the Potosi and Beetown road, Grant county.

Grist Mill at St. Marie.—We learn that the citizens of St Marie have formed a joint stock association for the purpose of supplying that place with a steam Grist Mill. A considerable portion of the stock has been subscribed and strong hopes are entertained of the success of the enterprise.

They propoae to put in two run of stones.—Such an institution is very much nedeed in that locality and will be a lasting benefit to their community.—*Berlin Courant*

The Harvest—The fears which were entertained last week by our farmers, that the late rains would prove injurous to the wheat crop, we are happy to learn have vanished, the cool winds immediately following the rain, having the effect to prevent the wheat from growing.—*Janesville Stand.*

Melancholy Accident.—A little girl, daughter of F. F. Hamilton of this place was missed on Saturday afternoon of last week. It was suspected that she had fell off the dock into the river and drowned. On Sunday morning about ten o'clock the body was found a few rods below the dock.—*Berlin Courant* 7th inst.

—A year ago, a gentleman of this County returned from Calafornia with $7,000, all of which he has spent in paying up old debts—The strangest part is that his credit is better since than before.—*Grant Co. Herald*

Grant County.—The total population of this county is 23,162, males 12,292; females, 10,870; foreign birth 5,343. The Lancaster Herald says:

"The excess of males over females in the County is 1 430, so that the ladies have that many chances for marrying more than the gentleman have. We must deduct however about 100 confirmed old bachelors, 9 of whom refuse to marry because of the expense, 20 because of their dislike to women' 20 because of former love disappointment, 12 because their hearts fail, 8 because they cannot make choice, and the balance because they are too mean for any lady to accept."

A Brilliant Meteor.—As we were passing home, says the Adrian *Expositor* of last week, we were startled with a flash at our back as bright as a flash of lightning. We immediately turned to discover the cause, there being no clouds in the sky, and saw in the western heavens, about 45 degrees above the horizon, and parallel with it, and about twenty degrees in length, a bright meteoric light, evidently the train of the meteor, the explosion of which had caused the flash which started us. The train, or remains of the meteor was of a brilliant white, or phosphorescent light, of the shape of an old fashioned dagger blade; commencing at the south point, and swelling to the broadest part at about one-third of its length; and then tapering off into a sharp point on the north. The light remained very bright for about ten seconds, then gradually faded for about ten seconds more, when it entirely disappeared. The train of the meteor was very fine, and unlike any thing we ever saw.

CITY LAND OFFICE.

THE great sale of city lots will take place on the 5th day of September, at my store.

I have just returned from a short trip South, and I met with hundreds who are preparing to come to our city.—The reason they have not been here before, is, that we have no accommodations for them and their families.

I could rent one hundred good dwelling houses this week if they could be found. Our property holders make a great mistake in not erecting the Hotel.

Let us try once more, and that in earnest, and see if we cannot get the Hotel started. I will do all that is required on my part. I have no doubt from what I have learned since I have been away, that our population would increase a thousand per month if there was any place for them to take their families.

All who intend to sell lots at the sale on the 5th of September, will please send in your lists, as I promised to send catalogues away, so that they can be here in time for sale. aug28 CALEB WALL.

DAILY DEMOCRAT.

THURSDAY::::::::::::::::::::::::::AUGUST 9.

La Crosse Railroad—Good News.—The contract for building the La Crosse Road from Noyce's corner to Beaver Dam, has been let to Messrs. GREEN and GENUNG, of the latter place, the work to be completed by the first of November. They commence work at once at both places.

For Collingwood.—By advertisement it will be seen that the excellent Steamer *Niagara* leaves *for Collingwood to-morrow* morning at 9 o'cl'k.

Wall's Advertisements.—We accidentally omitted to call attention to Mr. WALL'S advertisement, *yesterday*. We advise the public to read all his advertisements, and that one, especially, for by so doing they will obtain a great deal of information which they don't get through any other source.

Wreck.—Capt. CORBITT, of the schooner *Strenach*, reports having found the rigging of a wrecked vessel, between this port and White Lake, supposed to belong to the schooner-rigged scow *Kenaxcus*, which lost her rigging in the gale, on Friday night last, off Kenosha.

Races.—The purse of $50, trotted for yesterday, was won by *Black Blanche*. Time 2.55, 2.53, 2.52.

Row.—Quite a muss occurred at the Race Course, yesterday afternoon, between two "sporting gents" of the first water. One of the belligerents was considerably bruised.

Passenger Cars for the La Crosse R. R.—The schooner *North Star* arrived here this morning from Buffalo, with two passenger cars for the La Crosse & Milwaukee R. R. Co. We are informed that the company will commence running one train per day, on Monday next, to and from Shleissingerville, 26 miles.

Sch. Fred Hill.—Cap. CLIFFORD, late of the Brig *Robert Burns*, has been appointed to the command of the fine schooner *Fred Hill*. Capt. CLIFFORD is a thorough seaman, and a gentleman, and the *Hill* will lose no laurels with him to command.

☞ We acknowledge the receipt from JAMES & ROGERS of a basket of English White Potatoes that are "some pumpkins," together with some of the sweetest and most delicious butter that ever churn produced.

We tender our sincere thanks to the above firm for their very kind and acceptable gift, and wish them a long and happy life, and that success to which they are so well entitled by their upright and honorable course as merchants, and their well-merited reputation as good citizens, who, in enjoying many good things themselves, never forget an Editor's sanctum.

Long may the firm our friends "JAMES & ROGERS" ware.

"Spivins," of the *Wisconsin*, accuses us of slandering bachelors, because, as he says, we are a "*married institution.*" We plead not guilty to both accusations, neighbor. Our head, unlike yours, poor "SPIVINS," is entirely secure from collisions with crockery-ware, and articles of household furniture, and it is likely to remain so for some time to come. We commiserate your unhappy lot, neighbor, and hope Mrs. S. will remain peaceable hereafter.

Horticultural Society.—The Exhibition of this Society takes place, this afternoon and evening, at YOUNG'S HALL. Judging from the display made at 2½ P. M., we think the exhibition will be fully equal, if not superior, to any previous one held this year. We trust the Hall will be filled this evening, thereby showing that the efforts of the society are appreciated.

Police Court.—The case of Henry Kruger, vs. the city, action of trespass, has occupied the Court all day, and was not concluded at 3 P. M.

"Laugh and Grow Fat."—All persons having weak lungs should go and see CONNOR, at the Varieties, to-night. The managers offer a good bill.

Just like Typos—"bless 'em."—We recently spoke of a sailor who had befriended a young woman who had lost her money on her way to Rochester, but unfortunately becoming somewhat elated in the evening, was arrested for being intoxicated and sentenced to pay a fine of $10. The money he had in his generosity given to a needy woman had so nearly exhausted his "pile" that he couldn't "raise the wind" and he was sent to jail. It having been clearly proved that he behaved in the most generous manner to the destitute woman, and that her friends, who had the means, neglected to stand by him in his troubles, the compositors in the Rochester *Democrat* raised $10, got Jack Tar out of jail, obtained a pass for him to Buffalo, and gave him such a name that a first-rate berth was obtained for him on the Lake.

—Rev. Dr. Wayland has resigned the presidency of Brown University. He had held that office twenty seven years.

Two Counterfeiters Arrested.—Two men coming West yesterday on a train on the Michigan Southern Road, of which J. J. Simmons was conductor, passed counterfeit money at Laporte while the train was stopping there. One of them was arrested on the spot, and the other was secured on the train by Simmons, and handed over to the officers on arriving here. Mr. Simmons displayed considerable tact in managing his part of the matter.

The one arrested at Laporte had $400 counterfeit money on his person, but the one here and sent back, managed to throw away all that he had except a few dollars.—*Chicago Press.*

—An honest farmer in the southern part of Massachusetts, talking about his crops, was told that he must trust in Providence. "I do' no about that," said he, "I have been in Providence, and I have been in Boston, and I believe, I had much rather trust Boston, taking things into account."

Five Lawyers on a Stump.—A case in law was tried in Stockbridge a few days since, in which five lawyers were engaged, for the purpose of testing a claim to ownership, in an *old pine stump*. The case stands appealed to the Court of Common Pleas to be held in Worcester in September next.

—A boarding school miss, deeming "eat" a word too vulgar for refined ears, defines it thus: "To insert nutritious pabulum into the denticulated orifice below the nasal protuberance, which, being masticated, peregrinates through the cartilaginous cavities of the larynx, and is finally domiciliated in the receptacle for digestible particles."

—A bachelor at a recent celebration, offered the following gallant toast:

"Ladies—sweet briars in the garden of life."

The News.

—The Steamship *Atlantic* sailed yesterday for Liverpool with 123 passengers and $420,000 in specie.

—Mr. Hinds, of Ohio, has made a microscope capable of magnifying 17,000,000 times. This instrument will enable us to investigate, with some degree of success, the souls of Northern Democrats.

—Five or six tons of copper per day are now smelted at Cleveland. It comes from Lake Superior.

—Up to July, 81,032 Emigrants have arrived this year at New York. Last year, during the same time, the number was 164,532. This shows a falling off of more than half.

—The Delaware and New Jersey papers say the peach crop never was more abundant than this season.

—Lamartine is asserted to have realized $260,000 by his writings in 1848. He completed 47 volumes in 1848, working 14 hours daily.

—A shark, eighteen feet long, a perfect savage was caught at New Bedford on Thursday evening.

—There were 576 deaths in the city of New York last week—92 less than during the previous week. The mortality was chiefly among children only 159 adults having died.

—South Carolina papers mention the death of Dr. John C. Calhoun, third son of the late John C. Calhoun. He died of consumption at Winnsboro', S. C., on the 1st inst.

—The shipments of gold for the month of July from California, are stated at $1,890,000 to $2,000,000.

—There were ninety seven deaths in Boston during the week ending on Saturday, a large proportion of them being children under five years of age.

—An Irishman and his son were walking on the Hudson River Railroad when they were met near the railroad by two other Irishmen, who attacked the man who was accompanied by the boy, and during the struggle he was killed by being struck over the head with a bottle. After the deed was committed, the perpetrators took the body of their victim and placed it across the railroad track, threatening the boy with the same fate if he did not clear out and say nothing about the affair.

We understand the night train of cars soon came along and passed over the body of the murdered man, as was the murderers design.—The murderers, we learn, have been arrested and indentified by the boy.

—Byron wrote his celebrated poem "Bride of Abydos" in one night, and without mending his pen. This pen is yet to be seen at the British Museum. John Elliot translated the entire Bible into the Indian language and wrote the whole of it with one pen.

Milwaukee County Court—In Probate.

In the matter of the Estate of JAMES M'KAY, deceased.

TO all whom it may concern: Letters of administration on the estate of said deceased having been issued to Robert Wason, Jr. on the 9th day of June, A. D. 1855 and the time of six months from the date of said letters having been allowed and limited for creditors to present their claims for examination and allowance. *Notice is hereby given*, that the undersigned will on the last Monday of August, October, and November next, at the Probate Office, in the city of Milwaukee, receive, examine, and adjust all claims and demands of all persons against said deceased, Dated Milwaukee, June 23d, 1855.

CHAS. E. JENKINS,
june23 Haw4w County Judge.

STATE OF WISCONSIN, MILWAUKEE CO COURT } ss In Probate.

In the matter of the Estate of JOHN ARCHER, late of Milwaukee county, deceased.

It appearing to the satisfaction of this Court, by the Petition of John Bray and Mary Bray Administrators of the estate of John Archer, late of Milwaukee co., dec'd, intestate, there is not sufficient personal estate in the hand of the said Administrators to pay the debts outstanding against the said deceased, and the expenses of Administration, and it is necessary to sell part the Real Estate of the deceased for the payment of such debts; it is Therefore Ordered, That all persons interested in the said Estate appear before the undersigned, Judge of the County Court for said County, at the Probate Office, in the city of Milwaukee, the 1st day of September, 1855, at 10 o'clock A. M., to show cause, if any they have, why license should not be granted to the said Administrators to sell so much of the Real Estate of the said deceased as may be necessary to pay such debts.

And it is Further Ordered, That a copy of the above order be published in the Free Democrat, a newspaper printed in said city, for at least four successive weeks previous to the day of hearing the said application.

CHAS E. JENKINS,
County Judge.

AYER'S PILLS.

FOR ALL THE PURPOSES OF A

FAMILY PHYSIC.

THERE has long existed a public demand for an effective purgative pill which could be relied on as sure and perfectly safe in its operation. This has been prepared to meet that demand, and an extensive trial of its virtues has conclusively shown with what success it accomplishes the purpose designed. It is easy to make a physical *pill*, but not easy to make the best of all *pills*—one which should have none of the objections, but all the advantages, of every other. This has been attempted here, and with what success we would respectfully submit to the public decision. It has been unfortunate for the patient hitherto that almost every purgative medicine is acrimonious and irritating to the bowels. This is not. Many of them produce so much griping pain and revulsion in the system as to more than counterbalance the good to be derived from them. These *pills* produce no irritation or pain, unless it arise from a previously existing obstruction or derangement in the bowels. Being purely vegetable, no harm can arise from their use in any quantity; but it is better that any medicine should be taken judiciously. Minute directions for their use in the several diseases to which they are applicable are given on the box. Among the complaints which have been speedily cured by them, we may mention Liver Complaint, in its various forms of Jaundice, Indigestion, Languor and Loss of Appetite, Listlessness, Irritability, Bilious Headache, Bilious Fever, Fever and Ague, Pain in the Side and Loins; for, in truth, all these are but the consequence of diseased action in the liver. As an aperient they afford prompt and sure relief in Costiveness, Piles, Colic, Dysentery, Humors, Scrofula and Scurvy, Colds with soreness of the body, Ulcers and impurity of the blood; in short, any and every case where a purgative is required.

They have also produced some singularly successful cures in Rheumatism, Gout, Dropsy, Gravel, Erysipelas, Palpitation of the Heart, Pains in the Back, Stomach, and Side. They should be freely taken in the spring of the year, to purify the blood and prepare the system for the change of seasons. An occasional dose stimulates the stomach and bowels into healthy action, and restores the appetite and vigor. They purify the blood, and, by their stimulant action on the circulatory system, renovate the strength of the body, and restore the wasted or diseased energies of the whole organism. Hence an occasional dose is advantageous, even though no serious derangement exists; but unnecessary dosing should never be carried too far, as every purgative medicine reduces the strength, when taken to excess. The thousand cases in which a physic is required cannot be enumerated here, but they suggest themselves to the reason of every body; and it is confidently believed this pill will answer a better purpose than any thing which has hitherto been available to mankind. When their virtues are once known, the public will no longer doubt what remedy to employ when in need of a cathartic medicine. Being sugar-wrapped they are pleasant to take, and being purely vegetable, no harm can arise from their use in any quantity.

For minute directions see wrapper on the Box.

AYER'S
CHERRY PECTORAL,
For the rapid Cure of
COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, AND CONSUMPTION.

THIS remedy has won for itself such notoriety from its cures of every variety of pulmonary disease, that it is entirely unnecessary to recount the evidences of its virtues in any community where it has been employed. So wide is the field of its usefulness, and so numerous the cases of its cures, that almost every section of the country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs which are incident to our climate. And not only in formidable attacks upon the lungs, but for the milder varieties of COLDS, COUGHS, HOARSENESS, &c.; and for CHILDREN it is the pleasantest and safest medicine that can be obtained.

As it has long been in constant use throughout this section, we need not do more than assure the people its quality is kept up to the best that it ever has been, and that the genuine article is sold by—

W. L. HOPKINS & Bro., H. Bosworth & Sons, ag't Druggists in Milwaukee, and by dealers generally throughout the country.

THE OLD EAGLE GOING IT WITH A RUSH

The Eagle
STEAM FOUNDRY
OF
TURTON & SERCOMB,
296, 298, 300, 302 and 304, West Water Street

IS still in full blast, working day and night to supply the daily increasing wants of the Badger and other States.

In order the better to do this the proprietors have erected a large brick Foundry in addition to their former premises. They have added to their stock of Tools a large Planeing Machine or Shaping Machine, three Lathes, and a machine for making bolts, and are now putting in a Steam Engine of — horse power to drive the whole, thereby adding to their former facilities for the successful carrying on of the Foundry, Machine, Engine, and Blacksmithing business. They never were in a better position for doing business, and defy competion in any department.

In regard to the character of the work got up by this, *The Oldest Establishment in the State*, the Proprietors refer to that in successful operation thro' the country as their best recommendation, as it can speak for itself. All they can say is, that they are both PRACTICAL MECHANICS, and know how work should be done as well as the next man. They continue to manufacture **Flour and Saw Mill Gearing and Steam Engines,** on the most approved principle.

They have always on hand a large stock of BRASS WORK, such as *Guage and Cylinder Cocks, Oil Cups & Cocks, and Steam Whistles.* Also *Turton's Files*, which they will sell at the lowest cash prices.

They are also Agents for *Eastman's Patent Steam Guages*, which are well worth the attention of all who use Steam Engines.

In conclusion, they invite a continued share of the patronage of their old friends, and solicit a call from all those in want of Saw or Flouring Mill Work, assuring them that no exertions will be spared to render the Old Eagle worthy of the reputation it has already gained.

Their motto is, "*Excelsior.*"

GOODMAN & BALDWIN'S
CELEBRATED
MELODEONS.

These INSTRUMENTS being by far the most COMPLETE MELODEONS in use, are a recent invention of H. N. Goodman, of New Haven, Conn. They have two rows of keys, with four stops, two of them corresponding to the *Open Diapason* and *Principal* in Organs. Also Couple and Swell Draw Stops. The arrangement is such that either Stop may be played separately or all together, or one Stop with one hand and one or more with the other, one under a closed Swell, the other with open Swell, &c., producing effects which have heretofore been peculiar to large Organs. Of course, these instruments are admirably adapted for Organ practice, and their power, together with the other qualities above named, rank them far above the *small class of Organs*, either for the Church or Parlor.—Price, $225. For sale by H. N. HEMPSTED,
No. 175 East Water Street.
Only Agent in Milwaukee for the above Melodeons.

An intermission of some time will occur here to allow the audience an opportunity to look at the most elaborately devised Laces of Honiton, Maltese, Brussels Point D'Arlenzon magnificent Handkerchiefs, Chemisettes Muslins and Lace Collars and Sleeves, single and in setts and also at the incomparable
French Embroideries,
The largest and most complete assortment ever opened in the city of Milwaukee.
A few moments will here be allowed to afford an opportunity to look at beautiful fast colored Prints at 6¼ cents per yard, which are warranted fast colors, and will sell a
Handsome Dress for 50 cents, trimmings thrown in.
The next scene will be
Rich Chintz, figured and Brocade Bareges,
Silk Tissues, Elegant de Laines, Berege d'Laines, French Lawns, Organdines, and Ginghams, which will be sold at prices that will astonish all buyers.
The last scene, and final one, which will take place after and during every scene, will consist of a magnificent and attractive display of most beautiful Muslin and Lace
Window Draperies,
Parasols, Bonnets, Flats, Flowers, Ribbons, Hosiery, trimmings, Kid Gloves, as good an article as can be bought anywhere for 75 cents, we will sell for 50 cts. Also Broad Cloths, Cassimeres, French and English Merinoes, Flannels, Marseilles and Lancaster Quilts, Irish Linens, Table Linens, Table and Piano Spreads, Napkins, Towelings, Crashes, plain and plaid Jaconets, Swiss and dotted Mulls, Bishop and Victoria Lawns, Shirtings, Sheetings, Pillow case Muslins and Linens, Denims, Tickings, and a thousand of other articles not enumerated will be found amongst this stock, and sold at MANUFACTURER'S PRICES
This new, unrivalled and wonderful company numbers
Twenty-one Talented Performers,
Artistes in their Profession, and all celebrated far and wide for their politeness and attention to their numerous admirers, and blessed with the most unvarying patience in their conduct towards the Ladies.

GREAT BROAD GUAGE RAILROAD ROUTE!
FROM BUFFALO TO NEW YORK CITY, DIRECT
☞This is as cheap, as quick, shorter, safer, less fatiguing, and much more interesting and delightful, than any other route between the two points. And it is believed that the traveler of the South and Southwest is only to be made acquainted with it, and its connections with the various lines of steamboats and railroads, from the West, centering in Buffalo, to secure for it his favor and patronage. Besides, a view of the Portage Bridge, the wonder and admiration of all who have seen it, the traveler over this route is presented with scenes, constantly changing, the most beautiful and sublime, lovely and picturesque in the State of New York. The well cultivated farm, the dense forest, the gently flowing river, the rushing cataract the broad and fertile valley, the huge and lofty mountain, the quiet hamlet, and the busy, bustling, city-like village meet the eye in rapid succession, to interest, gratify and render the trip both pleasing and delightful
